OPERATION AND MAINTENANCE Part I TRAINING & CERTIFICATION

February 22-23, 2010 8:00 am - 5:00 pm
 Kentucky Exposition Center Louisville, KY

This two day course will directly benefit professionals who service onsite wastewater treatment systems by improving their ability to perform as a service provider for onsite wastewater treatment technologies.

Why Participate?

- Increase knowledge regarding management of onsite wastewater treatment systems
- Standardized checklists for conducting maintenance visits
- Improved ability to identify symptoms and diagnose problems associated with wastewater treatment technologies
- Identification of simple but critical items to note when conducting maintenance visits

The Benefits

- Improved communications with clients through use of standardized checklists
- Reduce time for evaluating systems
- Improved ability to compete in the marketplace because of standardization

This training has been developed by the Consortium of Institutes for Decentralized Wastewater Treatment.
